

ON-SITE RECYCLE, REUSE, UPCYCLE PROGRAM

MCCALLUM RD, INVERLEIGH
WADURRUNG COUNTRY
CLIFTON RESIDENCE

<http://greenwithenvyhomes.com.au>

ABOUT THE PROGRAM

This program endeavors to show how construction companies can make a real-world difference with an ON-SITE waste management system.

Owners are also encouraged to choose responsible builders with such systems when selecting who shall build their homes.

CLIFTON RESIDENCE PROGRAM TOTAL

Green with Envy Homes are proud to advise

The 'Cliftons'

that because of your decision to use our company, not only do you now have a beautiful new home to enjoy, but during the construction we were able to Recycle, Reuse or Upcycle

50.4 m³ of materials that would have become landfill on a common construction site.

50.4

cubic meters

SAVED

from

LANDFILL

CONSTRUCTION WASTE

FACT

It is estimated that approximately 40% of the earth's landfill comes from construction waste

50.4 m³ is the equivalent of

OVER **8** YEARS

worth of household recycling

8.07 YEARS

Worth of household recycling

Based on a FULL 240 Lt. yellow recycling bin emptied fortnightly.

$$0.24 \times 26 = 6.24 \text{ m}^3 \text{ per year}$$
$$\text{Total job } 50.4 \text{ m}^3 / 6.24 \text{ m}^3$$
$$= 8.07 \text{ years}$$

Recycled Item Breakdown

Material	Recycled at	Cost of Disposal \$	New Use	Amount m3
Concrete	Regional Recycle	Free	Road bases, other	13.9
Steels & Metals	Inverleigh Riding Club	Free	New steel products	13.0
